MEET OUR CISSP! PAGE 4

Small and medium-sized businesses are facing immense security challenges and these are the same as those of mid-size or larger enterprises.

Clearly, SMBs need to be alert for cyberattacks, but they also need to stay focused on their business and not sacrifice productivity.

Organizations are confronted with a severe security threats landscape, and it is critical that they have the ability to prevent, detect and respond to these threats in a timely manner. Hence, using a threat prevention and detection solution that doesn't disrupt day-to-day operations while providing early warning and stopping potential threats before they escalate is essential.

Our dependence on technology has grown and so has the number of ways that criminals can exploit vulnerabilities to gain access to sensitive information or disrupt critical systems. Today, businesses of all sizes must be vigilant in protecting their data and infrastructure from a wide variety of threats, including malware, phishing, and denial-of-service attacks.

While the threat landscape is constantly evolving, there are a few trends that we are seeing in the modern cybersecurity landscape.

Lincoln Archives, Inc.

General Tips for Document Storage

Whichever way you choose to store your documents, there are certain practices and procedures you should follow in order to make sure your storage system stays organized and efficient.

Lincoln Archives makes it safe and easy to store your documents offsite with easy accessibility:

Store your documents with accessibility in mind

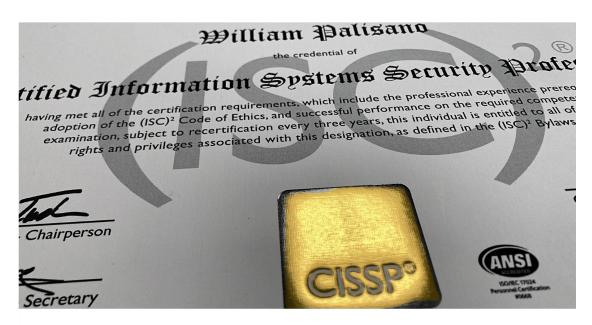

It's important to have a good system in place to make sure your archived documents are easily accessible. Consider storing documents of the same type together and be sure to label them so you can pick out the necessary documents easily.

Keep track of when your documents can be destroyed

Archiving documents is important to ensure that you remain compliant and have evidence such as receipts and pay slips when necessary. However, once documents are a few years old, they often no longer need to be kept.
