INFORMATION SECURITY VS CYBER SECURITY: THE DIFFERENCE

You'll often see the terms cyber security and information security used interchangeably. That's because, in their most basic forms, they refer to the same thing: the confidentiality, integrity and availability of information.

But there's a crucial difference between them that affects the way your organization operates.

Although we distinguish between information security and cyber security in this article, in practice there will be a significant overlap.

For a start, any type of cyber security mechanism that's designed to protect sensitive data can also be categorized as information security.

Password-protecting a database, for example, protects the information held within but also prevents a cyber attack.

There are also risks where physical and cyber security must be addressed. Take malicious insiders, for instance. Organizations must implement physical controls to prevent unauthorized personnel from reaching parts of the building where they shouldn't be.

But the organization must also consider the cyber security risks associated with this threat. Any digital records must be protected appropriately, such as with access controls or data encryption.

Just 'puttin' around!

Members of the Lincoln Archives' team put their mini golf skills to the test! *But it wasn't your average game.* Team members were tasked with 'mystery holes, including golfing with a shovel, using their clubs as pool cues, teeing off with a rubber duckie and even golfing blindfolded!

DESIGNING DATA GOVERNANCE THAT
DELIVERS VALUE

Lincoln Archives' president, William Palisano, attended the annual i-SIGMA Conference in fabulous Las Vegas, Nevada this year.

The International Secure Information Governance & Management Association (i-SIGMA®) conference focuses on records and information management, secure data destruction and information lifecycle management.

EMPLOYEE SPOTLIGHT

Say 'Hi' to Jake Bode, shredding operations manager and the newest member of Lincoln Archives' team. When not at work, Jake can either be found golfing, playing hockey or old school board games. *If you see him on the road, make sure to give Jake a wave!*
